Dr. Kathleen Scheid, Director of Curriculum, Instruction and Assessment

April 19, 2017

Dear Mr. Boerner,

I wanted to take a few minutes to let you know how grateful we are at the Pennridge School District for your generous agreement to host several School Board members, Mr. Androkites and me at the Fab Lab at Northampton Community College on March 30, 2017.

We were most appreciative of your time and learned a great deal about how a fabrication lab allows students to innovate, create and learn. As you know, we are establishing a new STEM program for our 7th and 8th graders next year, and your influence has impacted our curriculum design, tool choices and ideas for project-based learning.

We are excited about our STEM programs and are profoundly aware of the importance of professional development for our staff. You have graciously agreed to collaborate with us to insure that all staff are highly trained on the necessary machinery. Equally important, we are hopeful that, under your tutelage, our teachers will develop an even deeper understanding of the importance of supporting students as they discover what excites and intrigues them in a culture of developing entrepreneurship.

We look forward to a continued, collaborative relationship and thank you again for your all of your support, ingenuity and enthusiasm!

Sincerely,

Kathleen Brewster-Scheid, Ed. D.

Director of Curriculum, Instruction and Assessment

Mission Statement

It is paramount that our students graduate with knowledge of their talents, passions and what is necessary for them to remain life-long learners and productive citizens. These objectives need to be accomplished in a community-oriented environment that is safe, welcoming, nurturing, student-centered and respectful of all. As such, the mission of the Pennridge School District is as follows:

Pennridge School District strives to provide all students with a well-rounded educational experience where they acquire the 21st century skills necessary for a successful future.
